

**REMARKS**

This Amendment is in response to the Notice of Drawing Inconsistency with Specification mailed June 27, 2007. It is acknowledged that Figures 1-6 were filed in the original application, but only Figures 1-2 were described in the Brief Description of the Drawings section. Therefore, Applicant has amended the Brief Description of the Drawings section within the Specification to describe Figures 3-6. The description for Figures 3-6 was taken from the Specification so that no new substantive matter has been added.

In the event that a substitute specification would assist in the publication of the subject application, Applicant provides the substitute specification with these amendments as well as the amendments to the Specification and Abstract as presented in the Amendment dated February 28, 2006 in response to the Office Action dated September 29, 2005.

Applicant respectfully requests acceptance of the amendments to the Specification in order to place the subject application in proper condition for a grant of patent. If any petition is required, Applicant hereby petitions for acceptance of the above-listed amendments.

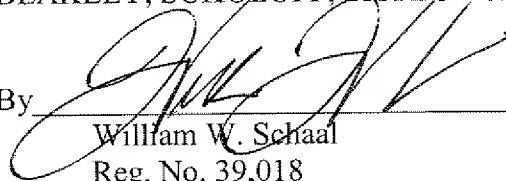

***Conclusion***

Applicant respectfully requests that a timely publication of the subject application.

Respectfully submitted,  
BLAKELY, SOKOLOFF, TAYLOR & ZAFMAN LLP
